

Sanket Detroja

Technical Support & Customer Service Professional | MS Computer Science, USA | Remote-Ready

Ahmedabad, India | +91 94095 96584 | smdetroja710@gmail.com

Available for remote roles serving US / Canada / Europe / Australia time zones

PROFESSIONAL SUMMARY

Customer-focused professional with an MS in Computer Science from California State University, Fullerton (USA) and experience across customer service operations, IT help desk support, and data center management. Comfortable handling 40–45 cases per day in fast-paced, international environments. Experienced working within US institutions and supporting global customers. Seeking a remote, work-from-home role with a company serving international markets where I can apply both my technical foundation and customer-support skills.

PROFESSIONAL EXPERIENCE

Customer Service Executive

TTEC · Ahmedabad, India | Feb 2026 – Present | Supporting Booking.com (Global Travel Platform)

- Handle 40–45 international customer and partner inquiries daily via email and chat, ensuring timely and accurate resolution while meeting SLA targets.
- Use CRM platforms and internal tools to investigate booking discrepancies, payment concerns, and policy clarifications with full case ownership until closure.
- Deliver clear, empathetic communication to a global customer base, maintaining high satisfaction standards in a high-volume environment.
- Collaborate with cross-functional teams and conduct outbound calls when needed to reduce escalations and improve partner experience.

IT University Data Center Student Assistant

California State University, Fullerton | May 2024 – Dec 2024

- Provided first-echelon helpdesk support, answering support calls and escalating critical issues.
- Monitored servers, networks, and environmental systems to ensure 24/7 operational reliability.
- Logged and managed tickets while documenting shift updates for smooth transitions.
- Assisted in emergencies, asset management tasks, and special technical projects.
- Maintained strict adherence to Information Security and Data Center Access guidelines.

Parking Customer Service Student Assistant

California State University, Fullerton | Aug 2023 – Dec 2024

- Managed 40+ customer interactions per shift via phone, email, and walk-ins.
- Processed payments with 100% accuracy and maintained detailed transaction records.
- Provided clear wayfinding and campus information to visitors.
- Resolved complaints through effective de-escalation techniques.
- Supported administrative operations including data entry and documentation.

KEY ACHIEVEMENTS

- Consistently managed 40–45 customer cases per day via email and chat while meeting SLA targets for a globally recognised travel brand.
- Maintained accurate ticket documentation and proactive follow-ups, contributing to reduced escalation rates and improved customer satisfaction.
- Gained direct US work experience at a university, supporting both IT infrastructure and customer-facing operations simultaneously.
- Delivered two full-stack development projects 30% ahead of schedule while maintaining high quality standards.
